

MAMBA-COATING

2020 | English

THE TOUGHEST THERE IS **MAMBA-COATING**

Permanent Protection for loading areas of your vehicles

PROTECT YOUR TRUCK FROM IMPACT, ABRASION, CORROSION AND STAINS

THE UNBREAKABLE LINER

MAMBA-COATING is the ultimate solution when it comes to protecting your truck beds. The system is spray applied and can be applied to any design or size in a few hours. Suitable for personal and commercial trucks and SUV's.

This system is, chemical, impact, wearing and UV resistant and can be covered with a topcoat to offer different colors and excellent UV color stability. Makes it ideal for off-roading as well as industrial and construction vehicles. Maintenance free and easy cleaning make it your lining choice for food and medical related vehicles like ambulances, food trucks, chilled trucks, and other hygienic uses.

MAMBA-COATING protects your vehicle's bed substrates from the ingress of moisture, chemicals and any other corrosion enhancing factors, and will offer a long lasting corrosion protection for your vehicles metal substrates even in the harshest climates and working conditions.

For passenger cars, **MAMBA-COATING** can be sprayed on open molds to produce removable PC Trunk liner that will provide a removable easy cleaning spill protection solution for your vehicle's trunk which is suitable for commercial, and domestic sedans and SUV's.
