LIQUISHIELD FLUID CONTAINMENT LINING SYSTEMS

Designed to meet the growing demand from consulting engineers for complete system solutions as opposed to products the LiquiShield system makes it easy to specify a complete liquid containment solution from one manufacturer. The LiquiShield range covers primary and secondary containment of chemical liquids and abrasive slurries through to potable water.

VIPSHIELD COMBO-PROTECT SYSTEMS

VIPShield eliminates the need for thick concrete screeds and can be applied directly to the construction concrete or directly to steel roofing structures reducing time and cost. VIPShield delivers dependable, enduring waterproofing and enhanced energy efficiency solution while keeping the overall cost throughout its lifespan at a minimum.
